GARMENT STRIKE FAR FROM SETTLEMENT

Delay After Jan. 1 Will Affect Easter Finery.

Benjamin Schlesinger, president of the International Ladies' Garment Makers' Union, said yesterday that the present strike of 55,000 workers which present strike of 55,000 workers which began on November 14, appeared further than ever from settlement. He announced that union officials were working upon a plan to begin the declaring of strike benefits, and hoped to put it into operation next week. He estimated that \$200,000 a week would be available for apportionment.

An examination into the garment trade reveals the fact that the manufacture of Easter there will not be in-

Paris, Dec. 7 (Associated Press).—
Accompanied by several French financial experts. Louis Loucheur, Minister of Liberated Regions, left Paris this evering for London, where he will confer with Sir Robert S. Horne, Chancelor of the Exchequer, with regard to the reparations payments due by Germany in January and February.

It is understood the British Government desires to explain the purpose of all the negotiations which recently have been going on in London with Dr. Walter Rathenau, former German Minister of Reconstruction, and other Germans, and also to discuss with M. Loucheur a general outline of the reparations policy which British financial experts believe to be necessary.

In Reparations Commission circles a mere the greatest importance is attached to the mission of M. Loucheur. It was pointed out that the chief purpose of his visit is to try to reach an accord with Great Britain on the future reparations policy. It was made ciear that the Minister was going to London at the invitation of the British Government, which is anxious to have the two countries in agreement so that a solid front may be established in readiness for the moment when the reparations payments are brought into open discussion by any

"The condition of the industry," he states in his opinion, "Is not good, so that if there has been a drop in cost of living the employers are properly entitled to the reduction in wages which the scale contract authorized in conformity to the changes in living costs. On the other hand, the conditions of the industry are not so bad as to justify a greater decrease in wages than the drop alone must determine a change in wage scale if there is to be any, and if there has been a drop in cost of living a lowering of wages is justified in accordance with the increased purchasing power of the dollar."
